

Emergency Aid Camp Infrastructure

Water Level Indicator / Dip Meter

Certificate of conformity B.G.S SP2.6 - SP2.9

Materials:

Reel manufactured in polypropylene and abs, mounted on a light weight steel frame, finished in epoxy black paint. Reel flanges standard green, also available in yellow or blue upon request. Polyethylene tape with two high strength stainless steel conductors.

Electrics:

Auto indicator mounted in hub of reel together with battery, transistor, printed circuit and sensitivity control. Light emitting diode also available for use on noisy sites.

Product shown for illustration purposes. Actual colour may vary from time to time

Probe:

Chrome plated brass, shrouded to ensure point contact and clean break when entering and leaving liquid.

Tape:

Graduated metre, decimetre and centimetre divisions, numbered black and red. Tape conductors high strength stainless steel, ensuring little or no stretch. With normal use better than 0.05% accuracy.
